<b>Total IgE</b> Total IgE*				

**Antigen-specific IgE** values represent relative immune recognition of the specific substances compared with population distributions (percentiles). **Total IgE** represents overall IgE antibody activity and provides context for individual immune response patterns. Results are intended for **informational and wellness purposes only** and should be interpreted in the context of personal history and professional guidance.

\* This test was developed, and its performance characteristics determined by Meridian Valley Lab. It has not been cleared or approved by the US FDA. This test was performed in a CLIA (50D0630590) certified laboratory.
